

# WALL WASHER

## Special Application

Wall Washer is a professional LED solution for uniform illumination of vertical surfaces in indoor and outdoor applications. It provides consistent light distribution across walls and façades for functional area and object lighting.

The luminaire delivers controlled, low-glare illumination with precise optical distribution, minimizing hotspots and shadows. Multiple optics, color temperature options and dimming interfaces allow adaptation to different project requirements.

Flexible installation options include surface, recessed and ground-mounted configurations. The system is designed for reliable long-term operation.

### Wall Washer Mini Accent lighting

Application					
Number of LEDs	3	6	9	12	15
Power (W)	3	6	9	12	15
Luminous flux (Lm)	330	670	1 010	1 350	1 700
Power supply	24 V DC				
Length mm	300	600	900	1 200	1 500
Weight kg	0.6	1.2	1.55	2.0	2.0

### Wall Washer Façade lighting

Application					
Number of LEDs	6	12	18	24	30
Power (W)	9	16	25	31	40
Luminous flux (Lm)	700	1 400	2 100	2 800	3 400
Power supply	24 V DC				
Length mm	300	600	900	1 200	1 500
Weight kg	1.3	2.35	3.5	4.5	5.5
